

High quality audits and audit reports for purchase

Diapharm ensures that suppliers of APIs, starting materials and excipients are audited in a cost-efficient manner. Through Europe's first accredited inspection body (type A) for active pharmaceutical ingredients, we are able to conduct independent, high-quality audits of API suppliers anywhere in the world.

We guarantee:

- API audits by qualified auditors
- Comprehensive API audit reports
- Highest quality and absolute independence (type A accredited)
- Confidentiality on all levels and guaranteed absence of conflict of interest
- Assessment of CAPA plan and CAPA declaration
- All costs included (e.g. travel expenses and translators)
- Acceptance by authorities worldwide
- Europe's only 4-way Audit System

Our accredited third-party audits meet the highest standards and are performed by an independent ISO 17020 (type A) accredited inspection body to ensure the highest quality and acceptance by authorities worldwide.
